The Jungle Book

Synopsis

Mowgli, was adopted and raised by wolves in the jungle after he was found abandoned in a boat ten years ago. All of the animals have come to love Mowgli and accept him as part of the jungle, despite his differences. However, word is spreading quickly around the jungle that Shere Khan, the Tiger, has returned to the jungle and he wants to hurt Mowgli. The jungle creatures know that the only way they can protect Mowgli from Shere Khan is to take him to the ‘man-village’. And so begins Mowgli’s journey through the jungle where he meets many new friends along the way.
